

# **Jamie Farrell**

Curriculum Vitae

August 2019

## **Present position**

Jamie M. Farrell, Ph.D.

Research Assistant Professor

University of Utah Seismograph Stations

Chief seismologist of the Yellowstone Volcano Observatory

Department of Geology & Geophysics

Frederick Albert Sutton Building 212

115 S. 1460 E.

Salt Lake City, UT 84112-0111

(801) 581-7856 (voice)

(801) 581-7065 (fax)

jamie.farrell@utah.edu (email)

<http://quake.utah.edu/about-us/uuss-staff-directory/dr-jamie-farrell> (web)

[www.uusatrg.utah.edu/PEOPLE/Jamie/](http://www.uusatrg.utah.edu/PEOPLE/Jamie/) (web)

## **Education**

Ph.D. in Geophysics, University of Utah, 2014

Dissertation: *Seismicity and tomographic imaging of the Yellowstone crustal magmatic-tectonic system.*

M.S. in Geophysics, University of Utah, 2007

Thesis: *Space-time seismicity and development of a geographical information system database with interactive graphics for the Yellowstone region.*

B.S. in Geology, Utah State University, 2001

Senior Thesis: *Finding the Pre-Grand Canyon Colorado River: Petrology of the Muddy Creek Formation North of Lake Mead.*

## **Professional Experience**

Research Assistant Professor, University of Utah, 2015 - present

Chief Seismologist, Yellowstone Volcano Observatory, Aug. 2017-present

Postdoctoral Fellow, University of Utah, 2013-2015

Research Assistant, University of Utah, 2004-2013

Instructor, University of Utah, on Earthquakes & Volcanoes, 2006 fall semester

Teaching Assistant, University of Utah, 2002-2004

Research Assistant, Utah State University, Summer 2001

## **Teaching Experience**

### **Instructor**

*Earthquakes & Volcanoes, GEO-1030/3030, University of Utah* – An intro level geology course on the occurrence, characteristics, and processes of earthquakes and volcanic eruptions on a global scale interpreted in terms of plate tectonics. Scientific and social aspects of living in earthquake and volcano country. Case histories from the western United States and elsewhere. Taught once in Fall 2006.

### **Teaching Assistant**

*Seismology I: Tectonophysics and Elastic Waves, GEO-5210/6211, University of Utah* - Continuum mechanics of Earth materials, tensor formulation of deformation and stress, fracture, flow, and rheology of the Earth materials; constitutive relationships; wave propagation, wave equations, reflection/refraction, travel time determinations. Introduction to analytic problem solving using computer tools. I was a TA under Bob Smith.

*Earthquake Seismology and Risk Assessment, GEO-5330/6330/7330, University of Utah* – Earthquake physics and methods of earthquake hazard assessment, earthquake mechanics; wave propagation, instrumentation, surface waves, interpretation of seismograms and earthquake location methods. A special section of the course can be taken separately that focuses on earthquake risk assessment including use of fault, earthquake history, strong ground motion, attenuation, and principles of deterministic and probabilistic earthquake risk assessment. Homework will emphasize computational and interpretational methods and will require computer skills in Fortran and Matlab or Maple. I was a TA under Bob Smith.

## **Invited Talks for Organizations**

University of Wyoming Distinguished Lecture – 02/19/2018

*-Seismic imaging of the Yellowstone Upper Geyser Basin using a dense seismic array.*

2018 Chapman Conference (Merging Geophysical, Petrochronologic, and Modeling Perspectives of Large Silicic Magma Systems

*-Seismic Imaging of a Large Silicic System: What we Know About the Yellowstone Magmatic System*

Yellowstone National Park Fall Forum Training – September, 2017

*-Yellowstone seismicity & The Upper Geyser Basin seismic imaging project.*

Swiss Federal Institute of Technology Zurich (ETHZ) – September. 2017

- *Seismic imaging of the Yellowstone Upper Geyser Basin using a dense seismic array.*
- Seismological Society of America Annual Meeting – April, 2017
  - *Using dense geophone arrays to image subsurface hydrothermal structure in the Upper Geyser Basin, Yellowstone National Park.*
- Eastern Idaho Public Health Earthquake Preparedness Seminar – April 11, 2017
  - *Earthquakes in the Intermountain West: When, Where, Why, How?*
- Utah Field House of Natural History Lecture Series – June 16, 2016
  - *The Yellowstone hotspot: One of the world’s largest volcanoes.*
- University of Utah Vice President for Research Nakama Research Seminar (Salt Lake City, UT) – November 6, 2015
  - *New Techniques to Better Understand the Yellowstone Supervolcano.*
- Timpanogos Club (Salt Lake City, UT) – October 22, 2015
  - *The Yellowstone Hotspot: One of the World’s Largest Volcanoes.*
- Geological Society of America Rocky Mtn. Section Meeting (Casper, WY) – May 21, 2015
  - *Recent Discoveries of Yellowstone’s Magmatic Plumbing System, Seismic Swarms, and Their Relationship to Current Deformation.*
- Kamloops Exploration Group (Kamloops, B.C.) – March 5, 2015
  - *The Yellowstone Hotspot: One of the World’s Largest Volcanoes*
- Bergen Student Society and Norwegian Geological Society (Bergen, Norway) – Sept. 30, 2014
  - *The Yellowstone Hotspot: One of the World’s Largest Volcanoes*
- Utah State University Science Unwrapped – March 30, 2012
  - *Yellowstone Supervolcano: Myths and Realities*
- U.S.G.S. Volcano/Earthquake Science Center Seminar – March 14, 2012
  - *Yellowstone dynamics from earthquake-volcano interactions*
- Swiss Federal Institute of Technology Zurich (ETHZ) – Feb. 2012
  - *Seismicity in the Yellowstone Volcanic Region: Insights from Recent Earthquake Swarms*
- The Yellowstone Snowmobile Guides Association, West Yellowstone, MT.
- The Nature Conservancy, Flat Ranch, Island Park, ID.
- The Utah Museum of Natural History Science Movie Night, Supervolcano, Jan. 2010.
- Madison High School, Rexburg, ID, “The Year Without a Summer” and Yellowstone.

## **Affiliations**

- American Geophysical Union (AGU)
- Seismological Society of America (SSA)
- Geological Society of America (GSA)

## **Awards**

- Best Student Presentation: 2013 SSA National Meeting, Salt Lake City, UT
- Best Student Poster: 2009 EarthScope National Meeting, Boise, ID
- Utah State University Dept. of Geology 2001 Outstanding Graduating Senior
- Utah State University Dept. of Geology 2000 Field Camp Scholarship recipient

## **Talks at National and Regional Meetings**

### 2018 AGU Fall Meeting

Seismic monitoring of the 2018 Kilauea eruption using a temporary dense geophone array

### 2018 Chapman Conference (Merging Geophysical, Petrochronologic, and Modeling Perspectives of Large Silicic Magma Systems

Seismic Imaging of a Large Silicic System: What we Know About the Yellowstone Magmatic System

### 2017 IAVCEI Scientific Assembly

The Yellowstone crustal magmatic system: Our current understanding and what's next.

2017 SSA Annual Meeting

Using dense geophone arrays to image subsurface hydrothermal structure in the Upper Geyser Basin, Yellowstone National Park.

2016 AGU Fall Meeting

Using a large N geophone array to identify hydrothermal seismic sources in the Upper Geyser Basin of Yellowstone National Park

The Yellowstone crustal magmatic system: what we know and what we don't know

2015 GSA Rocky Mtn. Section Meeting

Recent discoveries of Yellowstone's magmatic plumbing system, seismic swarms and their relationship to current deformation.

2014 SSA Annual Meeting

Dynamics of the Yellowstone volcanic system using 4D seismic imaging.

2013 SSA Annual Meeting

Crustal Velocity Structure and Seismicity of the Yellowstone Volcanic System from Automated Waveform Analysis of Body Waves, 1984-2011.

2012 AGU Fall Meeting

Crustal velocity structure and seismicity of the Yellowstone volcanic field from automated waveform analysis of P- and S-wave data of Yellowstone earthquakes from 1984-2012.

2009 AGU Fall Meeting

Geodetic and seismic monitoring of Yellowstone: A living, breathing, shaking volcano.

2009 GSA Rocky Mountain Section Meeting

Source properties and deformation analysis of the 2008-2009 Yellowstone Lake earthquake swarm.

2009 SSA Annual Meeting

Source properties and deformation analysis of the 2008-2009 Yellowstone Lake earthquake swarm.

2003 AGU Fall Meeting

Seismic and GPS monitoring of the 2003 Norris Geyser Basin hydrothermal disturbance, Yellowstone National Park.

## **Field Experience**

Planned and organized an NSF RAPID funded deployment of 80 nodal seismometers in response to the 2018 eruption of Kilauea volcano in Hawaii. All data are available at the IRIS DMC.

Planned and organized the seismic deployment of over 500 Nodal seismometers in and around Old Faithful, Yellowstone National Park in 2015, 2016, and 2017.

Planned and organized GPS and gravity campaigns in Yellowstone in 2007, 2008, 2009, and 2010 where we would collect data at ~30 stations in and around Yellowstone including backcountry sites that required travel by boat/helicopter.

Aid University of Utah Seismograph Stations field engineer Dave Drobeck in routine maintenance of Yellowstone seismograph stations of the Yellowstone Seismic Network.

Planned and organized a focused seismic and geodetic study of the Norris Geyser Basin in Yellowstone National Park in 2003 & 2006. We installed 7 broadband seismometers and 8 GPS stations to monitor ongoing anomalous activity in the Norris Geyser Basin.

Helped Dr. Greg Waite install seismometers in and around Mt. St. Helens in 2005 during a time of unrest.

### **Yellowstone/Teton Field Trips Led**

2017 IAVCEI Scientific Assembly (Yellowstone) – September, 2017

Geological Society of America (Yellowstone/Teton) – June, 2015

Wyoming Geological Association (Yellowstone) – Aug. 2012

Shell Oil (Tetons)

Utah State University Dept. of Geology (Yellowstone)

Yellowstone Association Institute Course (Aug. 2010)

- “The Grand Tour of Yellowstone Geology”

- 3 day course

### **Students Helped with Graduate Projects**

Sin-Mei Wu – Ph.D. University of Utah (Current)

Yadong Wang – Ph.D, University of Utah (Current)

Bonnie Pickering White – M.S. University of Utah

Katrina Settles DeNosaquo – M.S. University of Utah

Elena Russo – M.S. Michigan Tech

### **List of Collaborators**

Robert B. Smith – University of Utah

Christine M. Puskas – Unavco Inc.

Wu-Lung Chang – National Central University, Taiwan

Gregory P. Waite – Michigan Tech

Fred Massin – Swiss Federal Institute of Technology

Taka’aki Taira – University of California Berkeley

Stephan Husen – Swiss Federal Institute of Technology

Tobias Diehl – Swiss Federal Institute of Technology

David Shelly – USGS

David Drobeck – University of Utah Seismograph Stations

Marianne Karplus – University of Texas at El Paso

Keith Koper – University of Utah

Jeff Hungerford – Yellowstone National Park  
Hank Heasler – Yellowstone National Park  
Jake Lowenstern – USGS  
Mike Poland – USGS  
Fan-Chi Lin – University of Utah  
Hsin-Hua Huang – University of Utah  
Cliff Thurber – University of Wisconsin  
Tim Masterlark – South Dakota School of Technology  
Andrew Newman – Georgia Tech  
Charles Meertens – Unavco Inc.  
David Mencin – Unavco Inc.
